Access to the Electronic Networks

Electronic networks, including the Internet, are a part of the Cooperative's instructional program and serve to promote educational excellence by facilitating resource sharing, innovation, and communication. The Executive Director or designee shall develop an implementation plan for this policy and appoint a Technology Coordinator.

The Cooperative is not responsible for any information that may be lost, damaged, or become unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the Cooperative will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

The Cooperative's administrative procedure, *Acceptable Use of the Cooperative's Electronic Networks*, contains the appropriate uses, ethics, and protocol. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

They shall include a filtering device that protects against Internet access by both adults and minors to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by federal law and as determined by the Executive Director or designee. The Executive Director or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the
