Exhibit – Parent and Student Handbook - Notification to Parents Regarding the Right to Privacy in the School Setting

Re: When may school officials require a student to share the content from his or her account or profile on a social networking website?

State law requires the Cooperative to notify students and their parents/guardians of each of the following:

1. School officials may not request or require a student or his or her parent(s)/guardian(s) to provide a password or other related account information to gain access to the student's account or profile on a social networking website. Examples of *social networking websites* include Facebook, Instagram, Twitter, and ask.fm.
2. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Please contact the school if you have any questions.
